Site Criteria

- Power Centers, Strip Centers, Free Standing
- Strong Apparel Co-tenancy

Preferred 3 Mile Demographics

- 100,000 population
- MHHI of < \$75,000

About the Company

From a German-based streetwear retailer to a globally recognized brand, SNIPES has grown its physical footprint to 450+ stores extending all over Europe since opening its first store in Essen in 1998. As one of Europe's largest providers of sneakers and urban apparel, SNIPES has always maintained a strong focus on moving streetwear culture forward. Well-known brand partners like Meek Mill, 21 Savage, DJ Khaled, and more give SNIPES consumers the opportunity to take inspiration from top tastemakers in the industry and show their love for the community. Now with over 400 stores across the Eastern United States, the desire to expand the SNIPES brand across the USA grows stronger every day. SNIPES has lived sneakers and streetwear for over 20 years, but the journey is just getting started.
